

# Collaborate in Mapmaker

Last Modified on 03/22/2022 2:12 pm EDT

Please note that if you add multiple Builders, you cannot have the Builders working on the same Map in our Mapmaker at the same time. If one person clicks the Save button, it will override any concurrent edits created by other Builders.

However, you can have multiple people use our [Build tool](#) at the same time when they are in the Space.
