

Where is my Cocreate whiteboard?

Last Modified on 03/29/2022 10:38 am EDT

Cocreate whiteboards may be found in older Gather Spaces (created before April 2021). On **October 1, 2021**, Gather discontinued support for Cocreate whiteboards.

If you have data stored on a Cocreate whiteboard that you don't want to lose, select **SVG** in Cocreate's toolbar to save your whiteboard's content.

After our support ends, interacting with a Cocreate whiteboard will result in an error message. You can erase these whiteboard objects from your Space like any other object. [Place a new whiteboard](#) in your Space to create whiteboards powered by Eraser.
